

PEST CONTROL SERVICES FOR MANUFACTURING FACTORIES AT HULHUMALE' AND R. DHUVAAFARU

Description of Works

The scope of this project involves providing comprehensive pest control services to the **Hulhumale' Bottling Factory** and **Preform Factory**, both located within MWSC's Hulhumale' Operations Site, as well as **Dhuvaafaru Bottling Factory** at the R. Dhuvaafaru Operation Centre. The pest control program shall be implemented as an integrated approach aimed at achieving effective and environmentally responsible pest management.

Pest Control Approach

The pest control program shall incorporate the following management practices:

- Application of approved pest control chemicals through spraying, fogging, or other suitable methods

All chemical treatments shall be carried out at locations specified and approved by MWSC, in full compliance with environmental, health, and safety requirements.

Contractor Service Requirements

The Contractor shall be fully responsible for the implementation and delivery of all aspects of the pest control program. This includes providing qualified supervision, trained personnel, and all necessary labor, materials, chemicals, and equipment required to perform the services effectively.

The scope of services shall include:

- Provision of qualified supervision and trained personnel
- Supply of all necessary labor, materials, chemicals, and equipment
- Safe and effective application of both chemical and non-chemical control methods
- Removal and proper disposal of pests and related waste

In addition, optionally the Contractor may choose (without additional charge) to carry out site assessments and provide location-specific recommendations for structural and operational improvements. These recommendations shall focus on minimizing pest entry points, eliminating sources of attraction, and improving overall sanitation and hygiene standards within the facilities.

Location(s) of Works

Hulhumale' Bottling Factory and Preform Factory, both located within MWSC's Hulhumale' Operations Site, as well as the Bottling Factory at the R. Dhuvaafaru Operation Centre.

Record Keeping

The Contractor shall provide the following:

- Pest Control Plan of Work, including all supporting documents such as product labels, Material Safety Data Sheets (MSDS), and the approved service schedule
- Service reports detailing areas treated, methods applied, chemicals used (including brand name and formulation), and the exact locations of application
- Certificate of pest control issued by the Contractor, clearly indicating the location and date of each service
